WINTER READINESS INSPECTION

CUSTOMER	UNIT / TRUCK #	DATE	MILEAGE

10-POINT INSPECTION

P PASS · C CAUTION · F FAIL

01 TIRE CONDITION & COLD PRESSURE

P C F

Tread depth in 32nds at each position, sidewall damage, irregular wear. Record cold PSI. Tires lose about 1 PSI for every 10°F drop, so check cold and check often.

STEER L	STEER R	DRIVE LO	DRIVE LI	DRIVE RI	DRIVE RO

02 BRAKE PADS / SHOES

P C F

Visual through wheel. Estimated remaining: _____ /32"

03 AIR SYSTEM & DRYER

P C F

Drain tanks, check for moisture. Purge valve function. Air dryer cartridge date: _____

04 BATTERY DATE & VOLTAGE

P C F

Date code: _____ Voltage: _____ V
(Healthy: 12.6-12.8V at rest.) Cold cranking load test.

05 BELTS & HOSES

P C F

Squeeze test. Look for cracking, glazing, soft spots, dry rot, swelling near clamps.

06 COOLANT LEVEL & FREEZE POINT

P C F

Reservoir between min/max. Test freeze point, target -34°F or lower. Reading: _____ °F

07 LIGHTS, SIGNALS & REFLECTORS

P C F

Walkaround: headlights (low/high), markers, brake, turn, hazard, reverse. Lens and reflector condition.

08 WIPERS, WASHER & DEFROST

P C F

Winter blades, frame integrity. Washer fluid rated to -20°F. Confirm defrost and heater output.

09 BLOCK HEATER & STARTING AID

P C F

Cord and plug condition, no cuts or corrosion. Confirm heater draws. Starting aid function.

10 FUEL SYSTEM & WATER SEPARATOR

P C F

Winter blend confirmed, anti-gel treated. Drain water separator. Fuel filter date: _____
